

"COAST – FAMILY OWNED & OPERATED"

our
new
thing!

by Brad
McCluskie

**Wash Safe
Canada**

A new green alternative to bleach!

It's no secret that the "Green Products" industry is the fastest growing sector in hardware and cleaning supplies.

WASH SAFE CANADA products are both effective and highly eco-safe, biodegrading back into water just a few short hours after use. Just add water to any wash safe powder mix and watch as millions of scrubbing bubbles go to work on the surface that you need cleaned.

WASH SAFE CANADA announces an agreement with Coast Distributors of Nanaimo and Kelowna for Western Canadian distribution of **WASH SAFE'S** line of environmentally safe cleaning products. **WASH SAFE** is used primarily for moss, algae and mildew removal.

The Western Canada Building Supply Industry, through Coast Distributors, will now have access to this great line-up of safe cleaning solutions from **WASH SAFE**.

We at Coast are proud to distribute this fine line of quality environmentally safe products.
